Contribution statement for group 23: Zhiping Hu

1. **Idea Brainstorming:** All
2. **Architecture:** All
3. **Ingredients Scan:** Zhiping Hu
   - Built the initial project framework: Angular frontend and NestJS backend.
   - Designed the UI and the user interaction flow of the platform.
   - Selected OpenRouter as the LLM provider and DeepSeek V4.1 Flash as the model, for budget reasons.
4. **Recipe Engine:** Dan Zhang
5. **Web Order:** Helmut Brüls
6. **Testing:** All
   - Designed and implemented the ontology tests for receipe engine.
7. **Report:** All
